

PRELIMINARY VERSION APRIL 2017

TRY IT OUT ON A SINGLE PC -WITHOUT LICENSE

The link for any customer to download the free CoRe software:

<http://cdn.esitronic.de/CoWo/core.zip>

At the installation of the CoRe software for only one-pc installation, please have in mind just to jump over the installation point requesting the license.

At the moment (until version 1.1) all functionalities are available for non-licensed-version, but from the next version (1.2) coming in May 2017 following functions will only be available for licensed-version:

- Take pictures and Pictures protocol
- Attaching of PDF-Files (in case PDF want to be attached to a free-text task)
- Reading out of VIN over OBD (in case ESI+KTS are available)
- Email-connection to send data direct to customers

For a full version with all possibilities please contact your wholesaler
